

MANITOU MT 625

The MT 625 all-terrain telehandler has dimensions which are more than compact. It enables you to carry out all your handling work: placing pallets on the first floor of a building, bulk loading or unloading from storage area or on site. Under ground car parks and low headroom buildings on congested sites, you will appreciate all the qualities of this machine.

WORKING RANGE

Machine on tyres with forks

Unit - mm
