

# MANITOU MT 1335H

The MT 1335 H telehandler is an excellent choice for placing and removing loads on work sites up to two/three storeys tall. It's compact outriggers as well as hydrostatic transmission improve its load chart, giving you the flexibility and precision needed for handling any lifts at these heights.

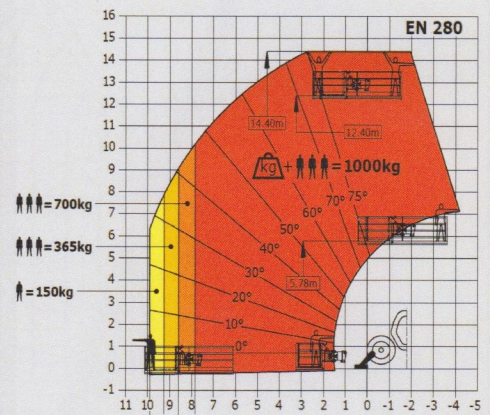

## WORKING RANGE

Machine on tyres with forks

Machine on stabilizers with forks

Machine on stabilizers with platform
